Sharing Task:

"So now we're going to play a sticker game. You can decide how many stickers you want to give a kid you have never met who will play this game at a different place later. You can give as many stickers as you want, but you cannot keep any for yourself. Any stickers you want to give to the next kid can go in this envelope. Any stickers that you do not want to give to this person can go in the trash envelope here, and I will throw them away when we finish. Does that make sense?"

"So remember, any stickers you want to give will go in here [point to envelope] and any stickers you don't want to give will go in here [point to trash envelope]. Okay, I'm going to turn around now, and you can decide what you want to do with the stickers. When you've made up your mind, just say done."
